

# 1:1 Ultrabook Charging Locker

## Charging Locker banks for iPads, Tablets, Chromebooks and more

The floor standing locker compartments are accessed via digital code locks. Each user chooses their own 4 digit code, enters the code to lock the door, then again to later re-open - so it's just like a hotel safe. There's also the option of key locks.

### Key features:

- Locker compartment size suitable for most mobile computing devices with up to 12" screens including ultrabooks, chromebooks, iPads, Tablets and Smartphones (please check dimensions before ordering). Please call us for advice on Samsung tablets.
- 20 bay locker module which can be combined with additional 20 bay modules to create a locker bank (other sizes on request)
- Optional metal base frame with adjustable feet and security wall bracket
- Separate compartment with power and storage for plugtop &/or desktop AC adapters and cables (options of USB power and USB sync & charge modules)
- Cables can be set to length & secured using the unique cable ports, leaving each compartment tidy & ready to use
- High quality compact laminate doors and shelves
- Key locks or digital code locks (single or multi-user settings) with mastercode override

# 1:1 Ultrabook Charging Locker

## Shelf dimensions:

The Ultrabook locker bank is designed to accommodate Ultrabooks, Chromebooks, iPads, Tablets and eReaders typically up to 12" screen sizes. The shelf aperture size is 355d x 230w x 50h (mm) - big enough so you can leave your devices in their cases, but best to check your device & case dimensions before ordering (including with the power connector plugged in).

|  |  |
|--|--|
| Construction   | Compact laminate doors and shelves, white melamine-faced MDF carcass, green electrical compartment cover. Optional metal base frame & wall security bracket.   |
| Charge only models - user supplied AC adapters       | Requires 1 power socket (UK, EU and others) per 20 bay module. Supports device AC plugtop &/or desktop power adapters with UK and EU plug formats, others by request.<br><i>(Individual device AC power adapters &amp; cables are required but not included. We recommend the use of manufacturer supplied power adapters).</i>          |
| Charge only models - integral USB power (on request) | Requires 1 power socket (UK, EU and others) per 20 bay module. Intelligent, universal charge technology detects each connected USB device and determines the optimum charge settings.<br><i>(Individual device USB cables are required but not included).</i>  |
| Charge & Sync models (on request)                    | Requires 1 power socket (UK, EU and others) per 20 bay module. Intelligent, universal USB charge and sync technology detects each connected device. Sync connection to a host laptop or PC is via 1 USB cable - this host sync connection USB cable is supplied.<br><i>(Individual device USB cables are required but not included).</i> |
| Warranty   | 5 years (2 years for electronics)  |
